- NONUNIFORMLY HYPERBOLIC DYNAMICS AND SMOOTH ERGODIC THEORY

June 25-29, 2007, Instituto Superior Técnico, Lisbon, Portugal

Conference dedicated to Yakov Pesin on the occasion of his 60th birthday. Topics will include the subjects of his landmark works and those on which he exerted the strongest influence, including: nonuniform hyperbolicity, smooth ergodic theory, partial hyperbolicity, thermodynamic formalism, dimension theory in dynamics, and related subjects.

- ICDEA2007 - INTERNATIONAL CONFERENCE ON DIFFERENCE EQUATIONS AND APPLICATIONS

July 22-28, 2007, Lisbon, Portugal

The purpose of the conference is to bring together both experts and novices in the theory and appli-

cation of difference equations and discrete dynamical systems. The main theme of the meeting will be “Discrete Dynamical Systems and Nonlinear Science”.
