# Global Portuguese Mathematicians

by **Samuel Lopes\***, **Jorge Milhazes de Freitas\*\*** and **Diogo Oliveira e Silva\*\*\***

**Global Portuguese Mathematicians** is a biennial conference series bringing together Portuguese mathematicians working worldwide. It aims to disseminate high-level research, promoting new collaborations as well as connecting the Portuguese-speaking mathematical community.

In 2019, the second edition of the conference *Global Portuguese Mathematicians* took place at the Department of Mathematics of the University of Porto on June 24–26, 2019. With speakers from a broad range of experiences and stages in their careers, they came from all corners of the world and work in a wide variety of mathematical fields, including algebra, analysis, dynamical systems, geometry, number theory and statistics.

Further information is available on the conference website <https://cmup.fc.up.pt/matematicos/>.

All invited speakers from the first and second editions of the conference *Global Portuguese Mathematicians* have been invited to submit a 10-page manuscript with a summary of their talks. These proceedings will be published as a special issue of the *Boletim da Sociedade Portuguesa de Matemática* in early 2020.

The organizers Samuel Lopes, Jorge Milhazes de Freitas and Diogo Oliveira e Silva have been invited to act as *Guest Editors* for this special issue.

The third edition of the conference *Global Portuguese Mathematicians* is tentatively scheduled to take place at the Department of Mathematics of the University of Coimbra in the Summer of 2021.
